## HARVEST FARM BARN

This beautiful two story gambrel barn is located north of Wellington. It is truly a modern barn with classic charm. The beauty of this barn is in both its form and function designed to make the most efficient use of the space. The spacious lower level has four enclosed stalls on one side, a large open area in the middle, and 3 enclosed rooms on the other side where they raise chickens and harvest eggs. The upstairs room is used as a meeting area and for extra storage space. Windows have been placed throughout the barn for light and ventilation. The second level deck provides an excellent view of the Rocky Mountains to the west.
