INDIAN CREEK BARN

This two story barn, in the foothills west of Loveland, serves as storage for a tall camper on one side and boat on the other. Large hinged doors allow pull-through into the long open area. It also has a twelve foot wide open lean to on the west side. The walls are 12 ft. tall and the upstairs is 17 ft wide and 36 feet long. Rough sawn pine siding and green steel roof help blend this barn into the foothills backdrop.
